Course Overview

This intensive training session prepares administrators or their designated trainers to successfully pass the mandated competency test required in order to become a trainer for caregiver employees. The test is given on the second day, and individuals who pass it will receive their certification to be a facility-based trainer in that specialty field.

Each course follows the same schedule. Day One is interactive and educational beginning at 9:00 a.m. and ending no later than 5:00 p.m. Day Two is designed for testing. Testing begins at 9:00 a.m., and participants may leave when their testing is complete. Day One includes morning refreshments, lunch and a light afternoon snack. Day Two includes morning refreshments only.
