Due by: COB Tuesday

Infection Control Assessment & Response (ICAR) Program

Free, non-regulatory ICARs are a great opportunity for skilled nursing facilities, adult family homes, and assisted living facilities to:

- Ask a Department of Health infection prevention expert questions.
- Get help finding gaps in your infection control protocols.
- Receive personalized advice and recommendations for your facility.

There are multiple ways to schedule an ICAR:

- Visit <https://fortress.wa.gov/doh/opinio/s?s=ICARconsultation>
- Email Maria Capella-Morales maria.capella-morales@doh.wa.gov
- Email Melissa Feskin Melissa.Feskin@doh.wa.gov

In partnership with:

- Local Health Jurisdictions
- LeadingAge Washington
- Washington Health Care Association
- Adult Family Home Council of WA State
- Washington State Hospital Association

LONG-TERM CARE FACILITY STAFF:

Reasons to Get Vaccinated Against COVID-19 Today

- 1 You are on the front lines and risk being exposed to people with COVID-19 each day on the job.
- 2 Protecting you also helps protect your residents and your family, especially those who may be at higher risk for severe illness from COVID-19.
- 3 You matter to us and play an essential role in keeping your community healthy.

Lead the way!

Encourage your coworkers, residents, family, and friends to get vaccinated.

Long-Term Care COVID-19 Immunization Champion Award Summer 2021

Congratulations to the first group of LTC facilities receiving awards!

Summer 2021 Recognition Program	Facilities Awarded
Gold Level – 90%+ Staff Vaccinated	26
Silver Level – 80-89%	18
Bronze Level – 70-79%	12

<https://www.doh.wa.gov/ForPublicHealthandHealthcareProviders/PublicHealthSystemResourcesandServices/Immunization/LongTermCareFacilities/LongTermCareCOVID19ImmunizationChampionAward>

Long-Term Care COVID-19 Immunization Champion Award

Continue to increase your LTCF staff vaccinations to qualify for next quarterly award and be recognized for your work and accomplishments to protect against COVID-19 in your facility!

It's simple to apply by responding to a 5-question survey!

Next deadline: December 1

- Any Long-Term Care facilities can participate <https://redcap.doh.wa.gov/surveys/?s=KFRMW8JN4P>
 - Skilled Nursing Facilities use NHSN to report staff rates
- For questions about the awards, contact covid.vaccine@doh.wa.gov
- For questions about the survey, contact LTC-COVID-Vaccination-Survey@doh.wa.gov using subject line: LTC COVID-19 Vaccination Survey.

NHSN Updates for SNF

- **Next NHSN release on Sept. 18, impacting:**
 - **Resident Impact and Facility Capacity Pathway**
 - **Weekly Vaccination for Residents and Staff**
 - **POC Test Reporting Tool**
 - **Get your Level 3 access now (SAMS grid card) – will be required week ending October 3**

Trainings scheduled:

- **Replay: 2021 Changes to the Weekly NHSN COVID-19 Vaccination Data Collection Forms for LTCF**
Date: Wednesday, September 29, 2021
Time: 10:00 – 11:00am PT
Registration:

Guidance Updates

DOH and DSHS are working on updating guidance and the Safe Start Plan

Some guidance can be implemented immediately:

- CDC Community Levels of Transmission
- Masking guidance
- Eye protection
- Testing Guidance
- AGP Guidance

CDC's Community Levels of Transmission

Community Transmission in US by County

	Total	Percent	% Change
High	3026	93.98%	-1.4%
Substantial	92	2.86%	0.81%
Moderate	31	0.96%	0.4%
Low	70	2.17%	0.19%

[How is community transmission calculated?](#)

Universal Use of Source Control (masks)

Secretary of Health Order 20-03.5

General Face Covering Requirement

Every person in Washington State must wear a face covering that covers their nose and mouth when they are in a place where any person from outside their household is present or in a place that is generally accessible to any person from outside their household, subject to the exceptions and exemptions below.

https://www.doh.wa.gov/Portals/1/Documents/1600/coronavirus/Secretary_of_Health_Order_20-03_Statewide_Face_Coverings.pdf

Updated CDC guidance:

“Source control and physical distancing (when physical distancing is feasible and will not interfere with provision of care) are recommended for everyone in a healthcare setting. This is particularly important for individuals, regardless of their vaccination status, who live or work in counties with substantial to high community transmission...”

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/infection-control-recommendations.html>

Eye Protection

CDC Update:

Healthcare workers in facilities located in counties with substantial or high transmission should wear eye protection (i.e., goggles or a face shield that covers the front and sides of the face) during all patient care encounters.

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/infection-control-recommendations.html>

Testing Guidance

- CMS and CDC moved from positivity to CDC Levels of Community Transmission to determine routine frequency of testing
 - CMS has retired positivity tracking
 - All counties are 'high' = test 2x a week
 - DOH recommends continuing to test HCW, regardless of vaccination status

Other updates to testing guidance are coming soon

AGP guidance

HCP in the room **during** the AGP (regardless of COVID-19 status) and anyone entering the room following the procedure should wear:

- N95 or other respirator
- Eye protection
- Gown
- Gloves

PPE should be worn in the room max 3 hours, but can be less according to ACH, if known.

<https://www.doh.wa.gov/Portals/1/Documents/1600/coronavirus/COVID19InfectionControlForAerosolGeneratingProcedures.pdf>

PPE use following AGP

- N95 or other respirator
- Gown
- Gloves
- Eye protection

May be exempt from respirator use **following** AGP if:

The resident is not known or suspected of having COVID-19

AND

The resident has not had a recent exposure

AND

ALL HCW in the facility are vaccinated

AND either

The resident has tested negative for COVID-19 no greater than 24 hours before the AGP

OR

The resident is fully vaccinated at time of AGP
