

Welcome to
Kachess Ridge Assisted Living & Memory Care
 of Easton

About Our Facility

As an assisted living facility, Kachess Ridge provides residents with 24/7 access to personal care and support in a community-based setting. Residents enjoy medications assistance, social services, and activities, as well as meals and housing.

Our Residents

The residents of Kachess Ridge are a social bunch! The activities room is never empty, and our resident council are committed to checking in with each resident regularly. About 30% of our residents receive memory care services, 15% were born outside of the U.S., and just over 70% are women.

Our Team

Kachess Ridge is proud to host a diverse and talented staff. Our team mentorship program pairs experienced employees with new hires to help them feel supported. We are one of the largest employers in our small (but rapidly growing) community, with staff commuting from up to 50 miles away each day.

Our Services

Common services and supports we provide our residents include:

- Bathing and dressing
- Medication management
- Memory care services
- Transportation
- Coordination of care
- Housekeeping and laundry
